Art & Soul Celebrates Oakland's Musical Heritage

Over the past few years, Art & Soul has been celebrating the area's musical heritage in Oakland and even helped launch musical events last year for the festival's 10th anniversary. The festival featured musical guests that have celebrated Oakland's culture MC Hammer, Ice Cube, King Tenz, and more. This year, Art & Soul is celebrating Oakland's musical heritage with a series of events.

To mark the start of the second decade, we wanted to celebrate the area's musical heritage in Oakland and even helped launch musical events last year for the festival's 10th anniversary. The festival featured musical guests that have celebrated Oakland's culture MC Hammer, Ice Cube, King Tenz, and more. This year, Art & Soul is celebrating Oakland's musical heritage with a series of events.

The Oakland Musical Heritage Festival will bring the program highlights some of the significant contributions Oaklanders have made to the world of music.

Headline 2011

Rosenblum Wine Garden

Located in the City

Rosenblum is a series of quality Rosenblum Cellars and is located in the City. The festival is a celebration of the area's musical heritage and is a celebration of the area's musical heritage.

WOMEN OF

Art & Soul looks off in several ways as the Bay Area's favorite women's gathering by adding a new show. "Women of" is a celebration of the area's musical heritage and is a celebration of the area's musical heritage.

**Welcome to your
11th Annual Festival!**

Art & business conceived to celebrate our city's rich diversity and point of artistic talent and creativity as a major center for arts, culture and commerce. A key economic development initiative, our festival has fueled downtown revitalization by attracting more than a half million visitors to downtown and generating positive

Thank you to all who have supported us over the years – volunteers, staff, area artists, performers, sponsors, government and more – our loyal friends and past. You have all contributed to making the B. B. Booths and the B. B. Booths a reality.

1. **Goal:** To determine the effect of the independent variable on the dependent variable.
 2. **Design:** A controlled experiment.
 3. **Setting:** A laboratory setting.
 4. **Subjects:** A group of subjects who are randomly assigned to the experimental and control groups.
 5. **Intervention:** The independent variable is manipulated in the experimental group.
 6. **Measurement:** The dependent variable is measured in both groups.
 7. **Analysis:** The data are analyzed using statistical methods to determine if there is a significant difference between the groups.

World Issues: Singapore's Response

Figure 1 consists of four bar charts arranged in a 2x2 grid, labeled (a) through (d). Each chart shows the percentage of respondents for five levels of agreement: 'Strongly disagree', 'Disagree', 'Neutral', 'Agree', and 'Strongly agree'. The y-axis for all charts ranges from 0 to 100 percent. The x-axis for all charts is 'Level of agreement'.

- (a) **Overall**: Shows the distribution for the entire sample. The 'Agree' and 'Strongly agree' categories are the most prominent, with 'Agree' being the highest.
- (b) **Female**: Shows the distribution for female respondents. The 'Agree' and 'Strongly agree' categories are the most prominent, with 'Agree' being the highest.
- (c) **Male**: Shows the distribution for male respondents. The 'Agree' and 'Strongly agree' categories are the most prominent, with 'Agree' being the highest.
- (d) **Age 18-29**: Shows the distribution for respondents aged 18-29. The 'Agree' and 'Strongly agree' categories are the most prominent, with 'Agree' being the highest.

Approximate data for Figure 1 (Percentages):

Level of agreement	(a) Overall	(b) Female	(c) Male	(d) Age 18-29
Strongly disagree	~2%	~2%	~2%	~2%
Disagree	~8%	~8%	~8%	~8%
Neutral	~15%	~15%	~15%	~15%
Agree	~45%	~45%	~45%	~45%
Strongly agree	~30%	~30%	~30%	~30%

[illegible]

Abstract—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and heart rate reserve (HRR) of sedentary middle-aged men. The subjects were 15 men, 40 to 50 years old, who had been sedentary for at least 1 year. They were randomly assigned to a 12-week training program or a control group. The training program consisted of 3 sessions per week of aerobic exercise at 60% to 70% of the maximum HR. The control group did not exercise. The HR and HRR were measured at rest and during a submaximal exercise test at the beginning and at the end of the 12-week period. The results showed that the training program significantly increased the HR and HRR at rest and during the submaximal exercise test. The control group showed no significant changes. The results suggest that a 12-week training program can improve the cardiovascular fitness of sedentary middle-aged men.

1. *Chlorophyll a* (Chl *a*) is the primary photosynthetic pigment in most plants and algae. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum.
